Miami, Florida, July 20, 2005...BR-111™ is proud to announce the expansion of its popular Indusparquet® 5/16” Solid line from three exotic hardwood species to a full complement of 10 products. The thinner solid uses less raw material and represents an exceptional exotic hardwood flooring value.

Featuring a 3 1/8” board width, Indusparquet® 5/16” Solid is finished with crystal clear aluminum oxide, highlighting the unique grain and character of each species while providing an easy to maintain and durable wear surface. The expanded line includes a 24-year residential and three year light commercial warranty and may be installed on or above grade following staple or glue-down instructions over approved 3/4” sub-flooring or concrete.

“The demand for our 5/16” solids has been excellent,” said Jason Strong, vice president of sales and marketing at BR-111™. “Because the thinner solids use less raw materials, they’re environmentally friendly and the price point is very attractive,” continued Strong.

The expanded Indusparquet® 5/16” Solid products are available exclusively through BR-111™’s new Fashion Under Foot™ merchandising system. Additions to the product line include Angelim, Angelim Nero, Brazilian Hickory, Brazilian Teak, Macchiato Pecan, Tiete Chestnut and Tigerwood. Amendoim, Brazilian Cherry, and Santos Mahogany round out the offering.

Celebrating its 15<sup>th</sup> anniversary, BR-111™ continues to be a leader in the exotic hardwood flooring arena, providing products that are recognized for their beauty, performance and overall value. Exciting new hardwood species and innovative products, ranging from prefinished solids to engineered flooring, are researched and developed annually in an on-going effort to achieve the ultimate level of quality and excellence.
