Miami, Florida, March 23, 2007... BR-111™ Exotic Hardwood Flooring announces it was chosen as a favorite among interior designers and architects in the House & Garden Designers' Best 07 survey and directory. More than 20,000 design professionals participated in this year's survey, while revealing their choices for the best products in the home and décor category.

BR-111 was included in the "Hardwood Flooring to the Trade and Retail" category and was chosen along with a select few hardwood flooring companies as "favorite/best hardwood flooring for all applications, including bath and kitchens." The entire survey featured 300 questions from 14 product categories and was completed by a virtual "Who's Who" from the world of design. The Zagat-style directory features the best home products and brand choices and is positioned to become the starting point for all home design projects.

"This is a prestigious honor to be recognized by America's leading designers in the House & Garden Designers' Best 07 resource directory," said Ricardo Moraes, president of BR-111™ Exotic Hardwood Flooring. "We strive every day to produce the finest hardwood flooring products," continued Moraes. "The House & Garden survey recognizes our efforts and places a list of "go-to" home products, picked by designers, right in front of our customers."

The annual House & Garden Designers' Best survey provides consumers the industry's most comprehensive research on products recommended by design professionals. This year's "little black book of design" appeared in the March issue of House & Garden. To see the complete results of the survey, visit [hgdesignersbest.com](http://hgdesignersbest.com)

For more than 15 years, BR-111™ has been a leader in the exotic hardwood flooring arena, providing products that are recognized for their beauty, performance and overall value. Exciting new hardwood species and innovative products, ranging from prefinished solids to engineered flooring, are researched and developed annually in an on-going effort to achieve the ultimate level of quality and excellence.
